

Best Poster Award
MSB2014 sponsored by
ThermoScientific

- 77 poster were presented in 21 session topics
- 26 reviewers
- 5 groups of 3 reviewers
- approx. 15 posters/group
- each group could deliver 0,1,2 nominations
- 6 nominations
- 5 min. oral presentation today (MSB series format!!)
- 13 reviewers ranked the presentations in final round
- Assign 1st, 2nd and 3rd place for 500, 300, 200 USD

Günter Allmaier, Bezhan Chankvetadze
Jacques Crommen, Attila Felinger
Petr Gebauer, Zdene Glatz
Andras Guttman, Rob Haselberg
Peter Horvatovich, Vaclav Kasicka
Jana Krenkova, Jörg Peter Kutter
Michael Lämmerhofer, Herbert H. Lindner
Frank M. Matysik, Staffan Nilsson
Jan Preisler, Andreas M. Rizzi
Johan Roeraade, Gerard Rozing
Julie Schappler, Gerhard K. E. Scriba
František Svec, Tom van de Goor
Gyula Vigh, Jean-Louis Viovy

Nominations

Number	Title	Presenting author
P-05	Prediction of peptide and glycopeptide separation from glycoprotein digests in capillary electrophoresis-mass spectrometry	Barroso, Albert
P-26	Modeling of separation efficiencies of large biomolecules in liquid chromatography	Horváth, Krisztián
P-38	Evaluation of the mass-transfer properties in chromatographic columns packed with sub-2- μm particles	Lambert, Nándor
P-51	$\mu\text{LC-MS}$ for quantitative analysis of aniline labeled N-glycans	Michael, Claudia
P-53	In-capillary electrical cell lysis for fast beta-galactosidase quantification using capillary electrophoresis	Nehmé, Reine
P-74	Electrophoresis in the liquid and gas-phase for investigation of the influence of fluorophore/quencher modifications on oligonucleotide conformations	Weiss, Victor U.

And the winners are.....

ThermoScientific Best Poster Award @ MSB2014
3rd place:

P-26

“Modeling of separation efficiencies of large biomolecules in liquid chromatography”

presented by Krisztián Horváth

And the winners are.....

ThermoScientific Best Poster Award @ MSB2014
2nd place:

P-53
*“In-capillary electrical cell lysis for fast beta-galactosidase
quantification using capillary electrophoresis”*

Presented by Reine Nehmé

And the winners are.....

ThermoScientific Best Poster Award @ MSB2014
1st place:

P51

“ μ LC-MS for quantitative analysis of aniline labeled N-glycans”

Presented by Claudia Michael
